Important Information

TO THE READER OF THIS BOOK.

The Imperial Life Insurance Company is a Corporation organized under the laws of the State of Michigan. Its head office is in Detroit, in that State.

CAPITAL.

It has a paid-up capital of one hundred and fifty thousand dollars. One hundred thousand of this is deposited with the Treasurer of the State in trust for the holders of its policies.

BOARD OF DIRECTORS.

The members of the direction are widely known as sound and competent business men of large experience and resources.

THE PURPOSE OF THE COMPANY

is to transact a Life Insurance business pure and simple. The idea is that the insurant shall *pay as he goes*, as he does in Fire Insurance. **The Actuaries Experience Table shows the average duration of life, and what amount must be paid to cover the risk of death at each age.** The Company grants insurance for periods **not to exceed one year at a time**, and charges for it just so much as the risk itself demands, **as shown by the Experience Table**, with an allowance for the necessary expenses of the business.

NO ASSESSMENTS.

There are no assessments under this system, and there is no uncertainty as to what the insured must pay. A table of rates is printed in the body of the policy.

POLICIES RENEWABLE.

All policies are renewable at any time before twelve o'clock of the day upon which they expire, *without medical re-examination*. This privilege enables the insurant to know that his policy may be kept alive as long as he lives, if he so wishes.

PLAIN LIFE POLICIES,

such as are issued by this Company, are highly approved by the best authorities.

The Hon. John K. Tarbox, Commissioner of Insurance of Massachusetts, says: "*The normal cost of Life Insurance is fixed by an immutable law of nature. For the man who wants insurance, the plain life policy, with no investment beyond what is necessary to protect the insurant, is the cheapest and best.*"

The Hon. Oliver Pillsbury, of New Hampshire, says: "The fact that few persons need to carry Life Insurance longer than from ten to twenty-five years is generally conceded. Pay as you go, from year to year, is a sensible proposition. Enjoy what you pay for and be in a position, in the case of inability or disinclination to pay longer, to cease paying, without sacrificing money paid to carry a policy away into the decimated ranks of the eighties or nineties, so seldom reached by frail mortality, are considerations worthy of reflection."
